PRICE THREE CENTS.

TECHNOLOGY FIELD DAY.

Conditions Governing the Events.

Below is given the complete set of rules and conditions governing the several events for Field Day. It is printed for the purpose of making all contestants familiar with the rules, in order that no misunderstandings will arise on Field Day.

The football game will start promptly at 2.30 P.M., between eleven men from each class. The game to be two 25-minute halves, with a rest of ten minutes between the halves. Current rules governing Intercollegiate football games to apply. Football teams must be on the field at 2.25 P.M.

A relay race of a mile and a half to be run by twelve men from each class, each man to run one-eighth of a mile. The sequence of runners shall be assured by the passing of flags from man to man, the successive runner to be stationary, with one foot on the mark when he receives the flag. The rules governing New England Intercollegiate relay races will apply. The relay race will be run immediately at the close of the first half of the football game and men must be on the field at once.

A tug-of-war will be pulled immediately after the second half of the football game and men must be on the field at once. The number of men is limited to twenty-five from each class. No artificial means will be employed. Each contestant shall pull standing. The length of the pull shall be five (5) minutes.

The rope shall be of sufficient length to allow for a "pull" of fifteen feet, and for fifteen feet slack at each end, together with four feet for each competitor; it shall not be less than four inches in circumference, and shall be without knot or other holdings for the hands. A centre tape shall be affixed at the center of the rope and fifteen feet on each side of the center tape two side tapes shall be affixed to the ends.

A center line shall be marked on the ground, and fifteen feet on either side of the centre line, two side lines parallel thereto.

At the start the rope shall be taut and the center tape over the center line, and the competitors shall be outside the side lines. The start shall be by firing off a pistol.

The pull shall be won when one team shall have pulled the side line of the opposing side over the center line, or, at the end of five minutes, the team whose side tape is farthest from the center ground line. The pull must be made within a "path" not exceeding fifteen feet in width.

No competitor shall wear boots or shoes with any projecting nails, springs or points of any kind, or make any holes in the ground with his feet or in any way before he starts; or wilfully touch the ground with any part of his person but his foot. The "Anchor" only may pass

(Continued on page 3).

FALL HANDICAP MEET.

Athletic Contests to be held Saturday at Technology Field; also Football Game, Roxbury Latin vs. Tech 1908.

Tomorrow afternoon there will be a double attraction at Technology Field, Brookline. At 3 P.M. there will be a football game between Roxbury Latin and Tech '08. Before and after the game the Annual Fall Handicap Meet of the M. I. T. A. A. will be held. For the last four weeks over a hundred athletes have been training for this event. Never before has such enthusiasm been shown. The rivalry and spirit of the contestants promise some exciting finishes and good time for the events, making the Meet well worth seeing. The rivalry between the two lower classes is especially intense and they will have large delegations present in the cheering section. Coach Mahan is much

pleased with the enthusiasm and interest with which the men have taken up the work this fall. Under his direction the Field has been improved wonderfully, and has become an athletic grounds that any college in the country might be proud to own.

Tickets are on sale today, and it is advisable to get one now to avoid the rush at the gate. A ticket admits you to the football game and the Meet.

The entry list up to Thursday night is very large. There is still time for you to enter, as the lists are not closed until to-night at 5 P.M. There are entry books in Rogers corridor and at the Field.

CHEMICAL SOCIETY.

The first meeting of the Chemical Society was held Wednesday evening, at the Tech Union, about fifty being present. Dr. Talbot was the speaker of the evening and took for his subject, "How our Chemical Society can be of use to us." He

dwelt on the need of self-confidence in public speaking and the results to be obtained by reading articles before the Society in that direction. Research-work was also another subject which he developed.

The wants of the "inner man" were ably attended to.

WILLIAM A. NICHOLS, PRINTER, 208 SUMMER ST., REAR

The nail-brushes in the Machine Tools Laboratory remind one of the story of the man who could not keep his hands clean because he was in the habit of putting them to his face.

While perhaps not awarded a great deal of space in the double-headed columns of the sporting page of our daily journals, in comparison with inter-collegiate contests, the Fall Handicap Meet at Tech Field tomorrow promises to be a good exhibition of sport for sport's sake. Interclass rivalry is a natural and friendly rivalry, affording spirited excitement yet with a groundwork of fun to both competitors and spectators. Come out and get your lungs in working order for Field Day.

In view of the fact that only two weeks remain before Field Day, it would be well for the 1908 and '09 men to rally to the support of their respective teams. During the games which have been played so far this year, there has been practically no cheering at all. Systematic cheering is essential to the contests on Field Day, and this can be effectively brought about only by organized cheering sections. The Tech suggests that cheer leaders be appointed at once in order to take advantage of the opportunity for practice tomorrow. The matter rests entirely with the two classes,

and the one which can have the strongest and snappiest cheering on Field Day, can count on by far the best chances of victory.

CHRISTIAN ASSOCIATION.

A rare opportunity is offered to Tech men to hear one of the most popular speakers in the world among college men.

The Technology Christian Association has been very fortunate in securing Robert E. Speer to address the student body in Huntington Hall tomorrow morning at 8.15. Mr. Speer is a graduate of Princeton of the class of 1889. Speer led his class easily, took nearly all the prizes in speaking and debating, played on the football team for three years and was very influential in college on account of his character and ability. It was the combination of these points, their balance and his intense moral earnestness that made him the power he was. He is a man who will make a remarkable impression if he is only allowed to speak for himself.

Since his graduation Mr. Speer has been prominent in association work and especially in the Student Volunteer movement. By the students representing over 120 different institutions at the Northfield conference he is considered by far the most popular speaker. He is at present Secretary of the Presbyterian board of foreign missions.

Mr. Speer speaks at Harvard Friday night and at Wellesley Sunday. Technology is also to be favored by his presence on Saturday morning at 8.15 in Huntington Hall. Everybody is invited to attend. Acting Dean Merrill will preside.

LOWELL INSTITUTE LECTURE.

About one hundred people heard Dr. James Ford Rhodes' lecture on "Reconstruction and Negro Sufferage." Tuesday evening, in Huntington Hall. Dr. Rhodes spoke particularly of the operation of Reconstruction Acts.

Everybody come out to Tech Field Saturday afternoon for the Handicap Meet.

There'll be something doing.
